Aim

The aim of this masterclass is to provide the required knowledge and skills for pharmacists who are starting out in critical care.

Learning Outcomes:

At the end of this masterclass, participants will be able to:

- Identify the causes of shock and the balance between perfusion and pressure
- Describe the basics of fluid balance and fluid choice in critical care
- Describe the advanced practitioner framework and explain its relevance to their role
- Inform choices on critical care specific drugs; keeping the patient calm, connected to the ventilator and free from pain
- Describe pharmaceutical aspects of the management of sepsis
- Undertake a medication review in critically ill patients

Tutors:

Dr Mark Tomlin, Consultant Pharmacist, Critical Care, University Hospital Southampton NHS Foundation Trust

James Parker, Advanced Clinical Pharmacist - Critical Care, Sheffield Teaching Hospitals NHS Foundation Trust

Fraser Hanks, Highly Specialist Pharmacist – Critical Care, Guy's and St Thomas' NHS Foundation Trust

Dr Rob Shulman, Lead Pharmacist – Critical Care, University College Hospital, London
