Aim

The aim of this masterclass is to provide the required knowledge and skills for pharmacists who are starting out in critical care.

Learning Outcomes:

At the end of this masterclass, participants will be able to:

- Identify the causes of shock and the balance between perfusion and pressure
- Describe the basics of fluid balance and fluid choice in critical care
- Describe the advanced practitioner framework and explain its relevance to their role
- Inform choices on critical care specific drugs; keeping the patient calm, connected to the ventilator and free from pain
- Describe pharmaceutical aspects of the management of sepsis
- Undertake a medication review in critically ill patients

Tutors:

Dr Mark Tomlin, Consultant Pharmacist, Critical Care, University Hospital Southampton NHS Foundation Trust

Greg Barton, Specialist Pharmacist Critical Care/Burns, St Helens and Knowsley Teaching Hospitals NHS Trust

Emma Boxall, Critical Care Pharmacist, Salford Royal NHS Foundation Trust, Manchester

John Dade, Principal Pharmacist, Leeds Teaching Hospitals NHS Trust

Patricia Crossey, Critical Care Pharmacist, Royal Liverpool University Hospital
